PALE HIGH COLOR

Our Pale High Color is produced with a kilning regimen based on traditional British pale ale malting practices. While maintaining an emphasis on enzymatic potential during the kilning process, we create a fully functional base malt with malt-forward characteristics.

It takes an intuition and an instinct that takes decades to master. We call it *soul*.

For 80 years, it has been our passion to make perfect malt for craft brewers and distillers like you. Thank you for choosing us to be at the heart of your craft.
